RTX SERIES · 1969 CAMARO

STOCK WITH THE KEY OFF. NOT WITH IT ON.

TURN THE KEY

Backlight

Drawn preview. Readouts are for show.

With the key off it reads like a factory '69 cluster: big speedo, big tach, stock layout. Turn the key and LED bars light up for oil pressure, coolant temp, volts and fuel. Two color message centers show whatever you set them to. The housings are CNC machined and the electronics are designed and built in-house in Sioux Falls.

1969 CAMARO RTX INSTRUMENTS

SKU RTX-69C-CAM · trim rings included

[KIT PRICE]

Do you need a new instrument carrier?

- No, I'll reuse my stock or repro carrier — $0
